VISN 19 MIRECC Advanced Fellowship Program in Mental Illness Research & Treatment

MIRECC
VISN 19 ROCKY MOUNTAIN NETWORK

Veterans Integrated Service Network (VISN) 19 Mental Illness Research, Education, and Clinical Center (MIRECC)
http://www.mirecc.va.gov/visn19.asp

MIRECC:
Mental Illness Research, Education & Clinical Centers

Congress established multiple Mental Illness Research, Education & Clinical Centers (MIRECC) for the purpose of "researching the causes and treatments of mental disorders and using education to put new knowledge into practice in the VA."

Each of the 13 nationwide MIRECCs is charged with a unique, dynamic mission. The Veterans Integrated Service Network (VISN) 19 Rocky Mountain MIRECC fulfills a critical mission studying suicide, with the goal of reducing suicidality in the Veteran population.

Specifically, the VISN 19 MIRECC, a) focuses on cognitive and neurobiological underpinnings of suicidality; and, 2) develops evidence-based educational and clinical materials to identify and treat Veterans who are suicidal.

How To Apply

1) Letter of Interest identifying goals, expectations and goodness of fit with program
2) Current curriculum vitae
3) Three letters of recommendation
4) Sample de-identified neuro/psychological evaluation report; and, summary of number and types of neuro/psychological tests administered.

VISN 19 ROCKY MOUNTAIN NETWORK

Application Requirements

- Completion of graduate training in APA-accredited doctoral program in Clinical or Counseling Psychology
- Completion of APA-accredited internship

VISN 19 MIRECC Advanced Fellowship Program In Mental Illness & Treatment

Our program aims to train psychologists to become outstanding clinicians/clinical researchers in the high priority area of Veteran mental health care. Fellows benefit from mentorship with top psychologist/researchers in the fields of suicidality, traumatic brain injury, and co-occurring psychiatric conditions.

Fellows train in a large hospital located in Denver, CO. Following a scientist-practitioner training model, Fellows gain the skills necessary to become successful, independent practitioners through: supervised clinical training, and a focus on evidence-based assessment, intervention and consultation.

As part of a network of participating MIRECCs, (administered through the Office of Academic Affiliations), VISN 19 also links to shared resources including didactics, academic and clinical research efforts. VISN 19 Fellows thus become part of a national cohort of Post Docs working towards a shared mission of serving today's Veterans.
