Director's Update: MIRECC Transition - Dr. Kudler

Congratulations to the Mid-Atlantic (VISN 6) MIRECC's Harold Kudler, MD, who was selected to lead the VA's national mental health policy office in Washington DC. On July 27, 2014, Dr. Kudler began his appointment as the Chief Consultant for Mental Health Services for VA Central Office.

Since the founding of the VISN 6 MIRECC in 2004, Dr. Kudler served as Associate Director and leader of our MIRECC's Clinical Core. Through his deep understanding of the essential role that community programs play in meeting the mental health needs of the Veterans we are honored to serve, he developed and disseminated innovative approaches to establishing and sustaining robust VA clinical and training partnerships and coalitions with Veteran-serving State agencies and community programs in North Carolina, Virginia and beyond. On behalf of his many colleagues in VA's collaborative network of MIRECCs and other mental health Centers of Excellence, I want to thank Dr. Kudler for his outstanding contributions, and wish him all the best in this important national leadership role.

John A. Fairbank, Ph.D. Director, Mid-Atlantic (VISN 6) MIRECC

Focus on the VISN National Service

Dr. Hurley (MIRECC Associate Director, Education) was an invited participant in the *Recommendations for TBI and Post-Deployment Screening and Transitions to Specialty Care Consensus Conference* held at VA Central Office August 27-28, 2014. The conference was sponsored by the Physical Medicine and Rehabilitation Program Office in collaboration with Mental Health Services, Post Deployment Health and the Polytrauma and Blast-Related Injuries QUERI. Dr. Hurley also served on the Office of Academic Affairs Interprofessional Specialty Care Enhancement Centers of Excellence Grant Review Panel, held by conference call October 28-29, 2014.

Home-Based Mental Health Evaluation (HOME) Program - Rural Extension

This new project is a collaboration between the VISN 19 MIRECC, VISN 6 MIRECC (Mira Brancu, PI) and the Durham VA Suicide Prevention team with support from the Durham VA psychiatry inpatient team. It was funded by the Office of Rural Health to extend the current HOME clinical demonstration project (described in the August issue) to the eastern rural areas of North Carolina. The primary goal is to increase engagement with aftercare and decrease the risk of suicide for rural Veterans who might experience difficulty with access to care near their home.

Focus on the VISN

HOME Program - Rural Extension

continued from page 1

A home visit and weekly phone contacts involving suicide assessment and safety planning is provided by the project clinician until the Veteran becomes connected to and engaged in outpatient care. In addition, data will be gathered to help evaluate factors related to feasibility of implementation for rural Veterans.

New Clinical Certifications

Drs. Cindy Swinkels and Christi Ulmer (MIRECC Durham site) recently received certification in Behavioral Sleep Medicine from the American Academy of Sleep Medicine!

Honors & Awards

Dr. Mike Ellwood (MIRECC Richmond site) received the Association of VA Psychologist Outstanding Training Director Award. The award was announced on August 8th at the 122nd Annual Convention of the American Psychological Association (APA).

Dr. Robin Hurley (MIRECC Associate Director, Education) received the 2014 Eugene A. Hargrove, MD, Mental Health Research Award from the Psychiatric Foundation of North Carolina for her contributions to the field of Traumatic Brain Injury and Post Traumatic Stress Disorder research. The award was announced on September 27th at the North Carolina Psychiatric Association Annual Meeting and Scientific Session.

Resources for Providers

Treatment of Substance Use Disorders in Veterans with PTSD

www.mirecc.va.gov/visn6/community.asp

This PowerPoint presentation by **Dr. John Allen (MIRECC Senior Scientist, Clinical Care)** addresses treatment of substance use disorder in Veterans who are also diagnosed as having PTSD. It reviews research on how deployment and war zone stressors contribute to development of each of the two conditions separately and their co-occurrence; evidence-based treatments for substance use disorder and PTSD; epidemiological findings on the dual diagnosis, dynamic interactions of the two conditions. It also provides recommendations for treatment. To assist community health care providers, the presentation also comments on issues of military culture; VA resources for OEF-OIF Veterans; and criteria for eligibility of care.

Program Update: Engaging Chaplains in MH Care

This project is funded by Central Office and housed within our MIRECC. **Dr. Keith Meador** directs the initiative, and **Dr. Jason Nieuwsma** serves as associate director.

Workshop: Using Acceptance and Commitment Therapy (ACT) to Improve Integrated Psychological and Spiritual Care

Portsmouth Naval Medical Center, Portsmouth VA
September 17, 2014

Dr. Jason Nieuwsma

More than 130 chaplains, substance abuse counselors, social workers, nurses, psychiatrists, psychologists and VA employees attended this invited full day workshop.

Symposium: The Role of Chaplains in Service Member Care

Psychological Health and Resilience Summit
September 17-19, 2014

Drs. Nieuwsma, Nobles, Stevens & Yeaw.

Webinar: Suicide in Military and Veteran Populations: Implications for Chaplains, Health Care Providers and Leaders

Defense Centers of Excellence for Psychological Health and Traumatic Brain Injury Webinar
September 25, 2014

Drs. Jason Nieuwsma & Rajeev Ramchand

This presentation begins with a description of the epidemiology of suicide in the United States, with a specific focus on suicide among service members and veterans. An epidemiologic foundation of suicide provides context to understanding how current research relates to a variety of prevention strategies. The discussion includes the role and approach of chaplains to suicide prevention in the military. Using data from a survey of chaplains in the Army, this overview reviews suicide prevention efforts and factors that may enhance or constrain effective support. The presentation concludes with recommendations from policy and research perspectives on how the military and civilian communities can bolster suicide prevention efforts.

★ Free ★ Web Courses for Providers

Treating the Invisible Wounds of War www.ahecconnect.com/citizensoldier

Click on **New Users** to register. You will then see the available web courses listed:

- 1 - *Treating the Invisible Wounds of War (TTIWW) english & spanish editions*
- 2 - *TTIWW - A Primary Care Approach*
- 3 - *TTIWW - Employee Assistance in the Civilian Workforce*
- 4 - *TTIWW - Issues of Women Returning from Combat*
- 5 - *TTIWW - Recognizing the Signs of mTBI during Routine Eye Examinations*
- 6 - *TTIWW - Understanding Military Family Issues*
- 7 - *TTIWW - Taking a Military History: Four Critical Questions*

These courses were developed by MIRECC faculty in collaboration with Citizen Soldier Support Program (CSSP) and North Carolina Area Health Education Center (NC AHEC). They are designed to help primary care physicians, case workers, mental health providers - who may see a veteran or family member on an unrelated issue - develop a better understanding of the culture in which veterans and their families live and work, and provide best practices for identifying, assessing and treating mental health problems that result from the trauma of war.
