

**VISN 2 Center for Integrated Healthcare
VA Advanced Fellowship Program in Mental Illness:
VA Western NY Healthcare System
Buffalo, New York**

Applications are Currently Being Accepted

Applications are currently being accepted for the VISN 2 Center for Integrated Healthcare (CIH) Postdoctoral Psychology Fellowship located at the VA Western NY Healthcare System for a two-year position commencing in the summer of 2014. Training will follow a scientist-practitioner model, with programmatic emphasis on research and clinical training in Primary Care-Mental Health Integration (PC-MHI) and Geropsychology. The Fellow's distribution of effort will be 75% research and 25% clinical.

The mission of the VISN 2 CIH's Postdoctoral Psychology Fellowship Program is to train psychologists to become outstanding clinical researchers in the high priority area of Veterans' mental health care, specifically in the area of PC-MHI. The research and clinical focus of CIH is to improve the quality of health care of Veterans by supporting the implementation of empirically-based methods of PC-MHI. VISN 2 was the first VISN in the VA to ensure that a Behavioral Health Provider is assigned to every primary care clinic in the network, and the VA is now at the forefront of the development of Patient Aligned Care Teams (known outside the VA as the patient-centered medical home).

Postdoctoral fellows will work collaboratively with CIH mentors on research related to brief mental health interventions and assessment suited to the primary care setting. Numerous clinical and implementation science research opportunities are available. These include, but are not limited to, novel approaches to population-based mental health care related to depression in older adults, dementia, pain, PTSD, and substance use disorders. Fellows will also receive didactics and supervised clinical experience in the co-located, collaborative model of PC-MHI, and in the Geriatric Evaluation and Management Clinic. Clinical training is designed to develop a thorough understanding of the mental health needs of Veterans in primary care throughout the lifespan.

Additionally, fellows will be provided with national teleconference and web-based didactic training opportunities. Information regarding the Department of Veterans Affairs Mental Illness Research, Education, and Clinical Centers (MIRECC) Fellowship Program can be found at:

<http://www.mirecc.va.gov/mirecc-fellowship.asp>

Start Date: Flexible, July– October 2014

Number of Post-Doctoral Positions: 2

Length of program: 2 years, with 3rd year extension possible

Stipend: \$43,283 (first year) – \$45,622 (second year)

Benefits: Health Insurance, 13 days paid vacation, and up to 13 days of sick leave per year

Accreditation Status: Non-accredited

Eligibility Requirements:

Prospective applicants must be U.S. Citizens, and have completed doctoral degree requirements from an APA-accredited program in clinical or counseling psychology, and an APA-accredited pre-doctoral psychology internship.

CIH is committed to seeking and sustaining a culturally and ethnically diverse work environment. The U.S. Government does not discriminate in employment on the basis of race, color, religion, sex (including pregnancy and gender identity), national origin, political affiliation, sexual orientation, marital status, disability, genetic information, age, membership in an employee organization, retaliation, parental status, military service, or other non-merit factor.

To apply:

Submit the following materials by e-mail (where possible) to Dr. Paul King, Associate Director of Fellowship Training:

1. Detailed vita describing background training and experience, description of internship, and other scholarly activity and research.
2. Three letters of recommendation from previous supervisors. *One letter must be from the Director of Training of your APA-accredited pre-doctoral internship.*
3. Official graduate transcript sent directly by your university. Unofficial Transcripts and e-mailed letters are acceptable until official transcripts and signed letters arrive.
4. Writing Samples. *Please send a scholarly work sample and clinical case report.*
5. Cover Letter/Letter of Intent. The letter should clearly describe how your career goals and interests are aligned with the fellowship training opportunities.
