Section 1: Overview of the Clinical Educator Grants (CEG) Program

What is the SC MIRECC?
The South Central Mental Illness Research, Education, and Clinical Center (SC MIRECC) is one of 10 MIRECCs in VHA. MIRECCs aim to improve the provision of healthcare services to Veterans with mental health conditions through research, education, and the refinement of models and systems for delivering mental healthcare. The mission of SC MIRECC is to promote equity in engagement, access, and quality of mental health care for Veterans facing barriers to care, especially rural and underserved Veterans.

Furthermore, the SC MIRECC strives to promote and celebrate a culture of diversity, equity and inclusion (DEI) among our staff, across our sites, and in the work we do to improve mental health care for rural and other underserved Veterans.

What is the CEG Program?
The CEG program is an opportunity for clinicians and researchers at VISN 16 and 17 VA medical centers (VAMCs) and community-based outpatient clinics (CBOCs) to develop educational products that address clinical gaps to improve mental health care for rural and underserved Veterans. All products are developed to be freely accessible in the public domain. Products must be designed to allow for wide dissemination and be easily used by clinicians or Veterans.

Who Can Apply?
- Mental health clinicians, researchers, evaluators, and educators in VISN 16 and VISN 17 or those collaborating with VISN 16 or VISN 17 mental health professionals.
  - A single applicant must be designated the principal applicant, even if the project has multiple collaborators.
  - For multi-site collaborations where each site should have its own leader, those individuals will be designated co-principal applicants.
  - For those collaborating with staff outside of VISN 16 or VISN 17, the principal applicant must be a VISN 16 or VISN 17 staff member.
- Trainees may apply, but must identify a permanent VA mental health professional as a co-applicant. The permanent VISN 16 or VISN 17 VA mental health professional will be responsible for completing the product if it has not been completed before the end of the trainee’s tenure at VA.
- Veteran or non-VA community members can be co-applicants, but not principal applicants.
- Awardees will be designated as SC MIRECC Affiliate Investigators during their project.
What is the Award Amount?

- Awards may be for up to $5,000.
- Multi-site collaborative projects at facilities in VISN 16 or VISN 17 may be eligible for a grant up to $10,000.

Section 2: Getting Started

Does Your Product Fill a Gap by Satisfying a Unique Need?
Check VA and community sources (websites, published materials, etc.) to ensure that a product similar to your proposal does not already exist. If there is a product similar to your proposed project, please be clear about how your product would fill an additional/different need.

With Whom Can I Talk About My Application?
Talk to a CEG program director before preparing an application. Ask if your idea is innovative, unique, doable, and fundable. Their advice, as well as others who are knowledgeable about your content area, can help create a stronger application.

Program Directors: Dr. Ali Abbas Asghar-Ali (Ali.Asghar-Ali@va.gov) and Dr. Jennifer Bryan (Jennifer.Bryan1@va.gov).

How Do I Make My Project Relevant to the SC MIRECC?
Your project must support the SC MIRECC mission or commitment to DEI to improve mental health care for rural and other underserved Veterans. Projects tailored to rural populations should be applicable to CBOC or rural community settings. All products should include consideration about diversity, equity, and inclusion.

What Type of Project Can I Submit?
Clinical educator projects lead to development and piloting of new educational resources. Talk with a CEG program director about your approach. Review our current inventory of products for examples at https://www.mirecc.va.gov/visn16/clinicalEducationProducts_topic.asp.

When Does My Project Have to be Completed?

- Project funds **must** be spent before the end of the fiscal year in which the award was received.
- Awards will be announced in September. **Spending deadlines are much earlier than the end of the fiscal year** - expenditures may not be made later than late August.
  - While the project does not have to be completed by late August, it is expected that the project would be completed within 12-18 months of the approval of the grant.
If awarded, the SC MIRECC purchaser will provide instructions on how to spend the funds. Awardees will be required to meet with the SCMIRECC purchaser before December 15 to discuss all purchasing plans.

Section 3: Instructions for Preparing and Submitting an Application

Where Is the Application Located?

When is the Application Due?
FY2024 applications are due by 4:00 PM (CT) on July 6, 2023.

How Do I Submit My Application?
- Email your application to VISN16SCMIRECCEducation@va.gov.
- If applicable, attach figures, additional references, letters of support, and other supporting documents to your email.
- In order to accept the application, your immediate supervisor and Mental Health or Service Line Chief must be copied on the submission email.
- Contact Jennifer.Bryan1@va.gov if you have questions.

What are the Guidelines for My Budget?
See the table below for purchasing guidelines for CEG funds. Justify each proposed expense using the budget table in the application.

If an item or service is available through your local Care/Service Lines, then justify the purchase of a similar item or service with project funds. Only include items in your budget that you have described in your application.

<table>
<thead>
<tr>
<th>You CAN purchase these items</th>
<th>You CANNOT purchase these items</th>
</tr>
</thead>
<tbody>
<tr>
<td>VA hiring of a new and temporary employee</td>
<td>Salary or honoraria to VA employees (even for work on personal time).</td>
</tr>
<tr>
<td>(approval from your HR department is required; this can take several months and success varies by site).</td>
<td></td>
</tr>
<tr>
<td>Incentives for participation. (e.g., Canteen coupons)</td>
<td>Food (including participant snacks) and lodging.</td>
</tr>
<tr>
<td>Professional services (e.g., voice recording; computer programming; web page design; graphic design) that cannot be provided by your</td>
<td>Equipment or IT (computers, projectors, CD players, and some software)</td>
</tr>
<tr>
<td>You CAN purchase these items</td>
<td>You CANNOT purchase these items</td>
</tr>

<td>facility to ensure that this service is not available.</td>
<td></td>
</tr>
<tr>
<td>🔄 Additional materials and/or supplies that are not available at your facility and are</td>
<td>🔄 Reproduction of electronic data (e.g., CDs) that can be provided by your VA facility</td>
</tr>
<tr>
<td>needed for the development (not sustainment) of your project, such as textbooks, guides, etc.</td>
<td></td>
</tr>
</tbody>
</table>

**Please note that the SC MIRECC can make the services of a medical editor available to you at no cost. They can copyedit educational products developed from this grant.**

**Graphic Design & Related Services.** If your product requires graphic design you must use the Baylor College of Medicine Graphics department unless you receive approval otherwise from the CEG program team. The CEG program team will assist you with setting up design services for your product. Additionally, if your product requires graphic design, video, or other related services it must be 508 compliant for users with audio/visual needs. This includes tasks such as adding alternate text for images in PDFs and captions on videos. Once your completed product is approved by the CEG program directors, it will be forwarded to Ashley McDaniel (Ashley.McDaniel@va.gov) to be posted on the Center’s website. If you are making a video, you will be asked to transfer the completed video to us by uploading it on our SC MIR Video Transfers YouTube account. Ms. McDaniel will guide you through the process and answer your questions.

**VA Contracting.** Any expenditure over $3500 for goods or services for a single transaction with one vendor has to go through VA Contracting. **Speak with the CEG purchaser and program directors before entering into any agreement with a vendor.** If you talk to vendors to get cost estimates while preparing your application, let them know that VA will put the work out for bid and they will have the opportunity to bid for the job. Please note that VA contracting may take several months to complete.

**Content Experts.** We cannot pay VA employees for work as consultants on this grant. If you are planning to consult with, and compensate, content experts, you must state that the content experts are not VA employees in the application. The total payment to each expert should be below $2500. **Speak with the CEG purchaser and program directors before entering into any agreement with an expert.** Experts must register with the System for Award Management.
(SAM) at https://sam.gov/SAM/ to receive payments. If the total payment will be above $2500, you must go through VA Contracting.

**Miscellaneous Items.** Miscellaneous items can be purchased if the items are needed to support the **development** of the product. However, such items may not be purchased for the **dissemination** of the product.

**Do I Need a Reference List or Letters of Support?**
Yes, you need a reference list. Provide a list of any references cited in your application. Limit references to relevant products, programs and literature. If there is not enough room in the application to list all your references, they can be attached to your submission in a separate file.

No, you do not need letters of support. However, for those who may choose to include letters of support, please submit all appropriate letters of support as an attachment in the same email as your application. Also, please include letters necessary to demonstrate the support of content experts and programs or departments providing support to or collaborating on the project (e.g., VA Employee Education System, your local Medical Media, etc.).

**Section 4: Review Process**

**Who Will Review My Application?**
All applications are reviewed by at least three members of the SC MIRECC Education Core or outside experts. They are rated in terms of consistency with the SC MIRECC mission, appropriate goals, target population, attention to population needs, feasibility of plans, appropriate evaluation, potential outcomes, and justified budget. Applicants will receive written feedback about their proposal. The review committee often asks applicants to make specific changes in their project or provide additional information in a revised application. Revised applications are reviewed for adherence to the review committee’s recommendations.

**When Will I Find Out if My Application Has Been Funded or Denied?**
Funding decisions are usually made in September. The CEG program directors will email applicants a decision letter.

**What Happens with My Product After it is Created?**
As you’re making your product, you should have it reviewed by members of the intended audience, e.g., Veterans, if intended for Veterans. If you do not have access to a local Veteran consumer council, we can facilitate review by the SC MIRECC Consumer Advisory Board or a related council. Once completed, your product will be reviewed by the CEG program directors. After your product is approved by the program directors, it will be sent for medical editing. You will be able to accept/reject suggested edits. If your product requires graphic designing, your product will be submitted to a graphic designer after editing is complete. After you approve the
graphic design it will be reviewed for 508 compliance. Finally, it will be forwarded to the SC MIRECC Communications Coordinator to be posted online. You will have the opportunity to review the webpage and provide details for the announcement before it is disseminated by the SC MIRECC.

It is critical that you consider a strategy for dissemination of your product. Keep the following questions in mind:

- How do you intend for the target audience to learn about your product?
- What are relevant distributions lists and professional organizations to which announcements about your product should be shared?
- How can we reach both VA and non-VA audience members?
- What newsletters, bulletins, etc. are appropriate for announcements about your product?

**How Should I Acknowledge SC MIRECC in My Product?**

Products created through this program are SC MIRECC and VHA products. They must acknowledge funding from the SC MIRECC with the statement “this [work] was supported by the VA South Central Mental Illness Research, Education and Clinical Center (MIRECC).” We will also provide the SC MIRECC symbol for placement on the final product. These products are not for profit and will be distributed to the public at no cost. Products will be posted on the SC MIRECC website.

**Section 5: Tips for Submitting a Successful Application**

✓ **Your application should be complete but brief.** Be clear about your project plan. Applications that are vague, general, or duplicate existing products will receive low scores.

✓ **Showcase the uniqueness of your product.** Search online for products similar to what you propose and state how your product differs from, or enhances, these existing resources.

✓ **Make sure you can complete your project in the timeframe you propose.**

✓ **Make your product widely applicable.** Your product should be easily accessible online and apply to a national audience of clinicians or Veterans.

✓ **Get feedback on your application from colleagues.**

**Section 6: Sample Applications**

1. Sample 1: [https://www.mirecc.va.gov/VISN16/docs/CEG_sample_application_1.pdf](https://www.mirecc.va.gov/VISN16/docs/CEG_sample_application_1.pdf)
