
Information from your Patient Aligned Care Team

Resources for Operation Enduring Freedom / Operation Iraqi Freedom (OEF/OIF) Veterans

Our country is grateful for your service. As one American family, we all join together to welcome you back home from your service.

VA Healthcare Network Upstate New York is committed to supporting our returning troops from Operations Enduring Freedom (OEF) and Operation Iraqi Freedom (OIF) to make sure they have the health care and benefits they need.

It is very important to note that you have five years from your date of discharge to receive free health care for any condition that may be related to combat service. After the five years, a co-payment status will depend on whether your illness or injury is found to be service-connected.

To enroll in VA health care:

- Visit your nearest [VA Medical Center or Community Based Clinic](#) nearest you
- Fill out the 10-10EZ [online enrollment form](#)
- or by mail or fax the completed 10-10EZ form to the nearest [Medical Center or Clinic](#).
- For Eligibility or Enrollment Questions Call Toll-Free: 1-888-823-9656

Program Managers for Returning OEF/OIF Veterans

Each medical center and benefits office has an OEF/OIF Program Manager to work with service members and veterans from Operations Enduring Freedom and Operation Iraqi Freedom.

Resources for OEF/OIF Veterans (continued)

Resources for OEF/OIF Veterans (**continued**)

Address: Melissa J. Krul
VA Medical Center
3495 Bailey Avenue
Buffalo, NY 14215

Transitioning from the Military to VA Health Care

Transitioning to VA Health Care

It is our duty and privilege to provide veterans with the best available care. VA has set up a special program designed to meet the specific needs of veterans returning from Operation Enduring Freedom (OEF) and Operation Iraqi Freedom (OIF). Many of our veterans have suffered illness and injury related to the Global War on Terrorism. It is our goal to make sure these veterans receive the highest quality of care in a timely manner. VA Healthcare Network Upstate New York will continue to look at the needs of OEF/OIF veterans and provide services to meet those needs. We encourage you to let us know how we can improve our service to you, the deserving veteran.

Available Health Care Services:

Outpatient medical/primary care

- Hospital and community living center care
- Dental
- Pharmacy and prescriptions
- Mental health care (counseling, addiction therapy, posttraumatic stress disorder (PTSD) treatment, etc.)
- Sexual trauma counseling
- Readjustment counseling
- Alcohol and drug dependency treatment
- Prosthetic services
- Specialized health care for women veterans
- Outreach programs for homeless veterans
- Medical evaluation for military service exposure, including: Gulf War, Agent Orange, Ionizing Radiation, and certain other environmental hazards

For additional information about health care services that are available to you, go to the [Operation Enduring Freedom/Operation Iraqi Freedom \(OEF/OIF\) Web site](#).

Eligibility

The primary factor in determining basic eligibility for VA benefits is “veteran status.”

- Active duty in the Armed Forces with a discharge or release from active service under conditions other than dishonorable conditions establishes veteran status
- Reservist or National Guard members can establish eligibility for VA health care benefits only if federally activated
- Reservists who are never called to active duty may qualify for some benefits through the Veterans Benefits Administration (VBA)
- Veterans who served on active duty in combat support or direct combat operations during a period of war after the Gulf War, or against a hostile force during a period of hostilities after November 11, 1998.

Veterans under this authority may be enrolled as priority category 6 and are eligible for the full medical benefits package; as such they are not subject to co-payments for care potentially related to their combat service for a period of 5 years from the date of discharge from active duty, recorded on the DD214.

Online Enrollment

To receive health care benefits all veterans must enroll. You may enroll online at www.va.gov. Click on the “Apply Online,” then go to “Health Eligibility.” This will bring you to the electronic application for health care benefits (Form 10-10EZ). You can also get enrollment information and assistance at any [Veterans Service Center](#) at any [VA Medical Center or clinic](#).

Homecoming after Deployment

With deployment comes change. Knowing what to expect and how to deal with changes can make homecoming more enjoyable and less stressful.

Expectations:

- You may miss the excitement of the deployment for a while
- Spouses may have become more independent and learned new coping skills
- You may not want to talk about it when others keep asking
- You may wonder if you still fit into the family

Tips:

- Support good things your family has done
- Take time to listen and talk with loved ones
- Be patient with yourself and family members
- Be aware that your family may not be the same as before; everyone may have changed

Patient Transition Advocate Program

The transition from Military Service to civilian life can be challenging. VA Healthcare Network Upstate New York has Patient Transition Advocates to support you through this process and serve as your advocate. If you are an Operation Enduring Freedom or Iraqi Freedom veteran and have concerns about eligibility, health care or other benefits, our Patient Transition Advocates are available to assist you.

Suicide Prevention Lifeline is 24 hours a day to help in an of operation, 62,000 veterans, veterans have called the been 1,400 rescues to prevent

staffed by trained professionals immediate crisis. After one year family members, and friends of Lifeline. Of those there have possible tragedies.

The Center for Integrated Healthcare gratefully acknowledges the contributions of the VISN 2 and Department of Veterans Affairs websites for portions of the content used to prepare this informational brochure.
