Director’s Update: MIRECC Transition - Dr. Kudler

Congratulations to the Mid-Atlantic (VISN 6) MIRECC’s Harold Kudler, MD, who was selected to lead the VA’s national mental health policy office in Washington DC. On July 27, 2014, Dr. Kudler began his appointment as the Chief Consultant for Mental Health Services for VA Central Office. Since the founding of the VISN 6 MIRECC in 2004, Dr. Kudler served as Associate Director and leader of our MIRECC’s Clinical Core. Through his deep understanding of the essential role that community programs play in meeting the mental health needs of the Veterans we are honored to serve, he developed and disseminated innovative approaches to establishing and sustaining robust VA clinical and training partnerships and coalitions with Veteran-serving State agencies and community programs in North Carolina, Virginia and beyond. On behalf of his many colleagues in VA’s collaborative network of MIRECCs and other mental health Centers of Excellence, I want to thank Dr. Kudler for his outstanding contributions, and wish him all the best in this important national leadership role.

John A. Fairbank, Ph.D. Director, Mid-Atlantic (VISN 6) MIRECC

Focus on the VISN National Service

Dr. Hurley (MIRECC Associate Director, Education) was an invited participant in the Recommendations for TBI and Post-Deployment Screening and Transitions to Specialty Care Consensus Conference held at VA Central Office August 27-28, 2014. The conference was sponsored by the Physical Medicine and Rehabilitation Program Office in collaboration with Mental Health Services, Post Deployment Health and the Polytrauma and Blast-Related Injuries QUERI. Dr. Hurley also served on the Office of Academic Affairs Interprofessional Specialty Care Enhancement Centers of Excellence Grant Review Panel, held by conference call October 28-29, 2014.

Home-Based Mental Health Evaluation (HOME) Program - Rural Extension

This new project is a collaboration between the VISN 19 MIRECC, VISN 6 MIRECC (Mira Brancu, PI) and the Durham VA Suicide Prevention team with support from the Durham VA psychiatry inpatient team. It was funded by the Office of Rural Health to extend the current HOME clinical demonstration project (described in the August issue) to the eastern rural areas of North Carolina. The primary goal is to increase engagement with aftercare and decrease the risk of suicide for rural Veterans who might experience difficulty with access to care near their home.

Recently Approved Grants

Jennifer Gierish (PI) Adjunctive Mood Management for Telephone-based Smoking Cessation in Primary Care. VA HSR&D Merit Review Award
Focus on the VISN

HOME Program - Rural Extension

A home visit and weekly phone contacts involving suicide assessment and safety planning is provided by the project clinician until the Veteran becomes connected to and engaged in outpatient care. In addition, data will be gathered to help evaluate factors related to feasibility of implementation for rural Veterans.

New Clinical Certifications

Drs. Cindy Swinkels and Christi Ulmer (MIRECC Durham site) recently received certification in Behavioral Sleep Medicine from the American Academy of Sleep Medicine!

Promotions

Dr. Larry Tupler (MIRECC Assistant Director, Neurocognition) has been promoted to Associate Professor (Track IV) in the Department of Psychiatry and Behavioral Sciences at Duke University.

Each CBOC MH Rounds presentation is now offered twice a month.

Wednesday November 12 from 9-10 am ET
Thursday November 13 from 12-1 pm ET

Ethical Challenges of Dual Relationships
Laurie Guillory, LCSW & Beth Jeffries, PhD

Remind to register in TMS for a session to receive credit. Log into your TMS account to join the presentation.

December 10 & 11

**Free** Web Courses for Providers

**Treating the Invisible Wounds of War**
www.ahecconnect.com/citizensoldier

Click on **New Users** to register. You will then see the available web courses listed:

1. **Treating the Invisible Wounds of War (TTIWW) english & spanish editions**
2. **TTIWW - A Primary Care Approach**
3. **TTIWW - Employee Assistance in the Civilian Workforce**
4. **TTIWW - Issues of Women Returning from Combat**
5. **TTIWW - Recognizing the Signs of mTBI during Routine Eye Examinations**
6. **TTIWW - Understanding Military Family Issues**
7. **TTIWW - Taking a Military History: Four Critical Questions**

These courses were developed by MIRECC faculty in collaboration with Citizen Soldier Support Program (CSSP) and North Carolina Area Health Education Center (NC AHEC). They are designed to help primary care physicians, case workers, mental health providers - who may see a veteran or family member on an unrelated issue - develop a better understanding of the culture in which veterans and their families live and work, and provide best practices for identifying, assessing and treating mental health problems that result from the trauma of war.

Program Update: Engaging Chaplains in MH Care

This project is funded by Central Office and housed within our MIRECC. **Dr. Keith Meador** directs the initiative, and **Dr. Jason Nieuwsma** serves as associate director.

**Workshop: Using Acceptance and Commitment Therapy (ACT) to Improve Integrated Psychological and Spiritual Care**

Portsmouth Naval Medical Center, Portsmouth VA  
September 17, 2014  
Dr. Jason Nieuwsma

More than 130 chaplains, substance abuse counselors, social workers, nurses, psychiatrists, psychologists and VA employees attended this invited full day workshop.

**Symposium: The Role of Chaplains in Service Member Care**

Psychological Health and Resilience Summit  
September 17-19, 2014  

**Webinar: Suicide in Military and Veteran Populations: Implications for Chaplains, Health Care Providers and Leaders**

Defense Centers of Excellence for Psychological Health and Traumatic Brain Injury Webinar  
September 25, 2014  
Drs. Jason Nieuwsma & Rajeev Ramchand

This presentation begins with a description of the epidemiology of suicide in the United States, with a specific focus on suicide among service members and veterans. An epidemiologic foundation of suicide provides context to understanding how current research relates to a variety of prevention strategies. The discussion includes the role and approach of chaplains to suicide prevention in the military. Using data from a survey of chaplains in the Army, this overview reviews suicide prevention efforts and factors that may enhance or constrain effective support. The presentation concludes with recommendations from policy and research perspectives on how the military and civilian communities can bolster suicide prevention efforts.
