

## Focus on the VISN

**National Service** An interview with **Dr. Robin Hurley** (MIRECC Associate Director, Education) has just been posted on **VAntage Point**, the official blog of the US Department of Veteran Affairs!

Dr. Hurley shares some of her thoughts on the tremendous impact that VA partnerships with US medical schools have had on health care for Veterans and medicine in general.

Dr. Hurley coordinates and oversees training and education programs of VA residents and students at the Salisbury VA Medical Center. She has been strengthening the VA's affiliation with the Wake Forest School of Medicine in nearby Winston-Salem for some time, commenting *"I knew the relationship could be special."*

## Research Project Update

## *Abstinence Reinforcement Therapy (ART) for Homeless Veteran Smokers*

Recently, **Dr. Beckham** (MIRECC Co-Associate Director, Research) and her study team hosted a Consumer, Family and Expert Provider Advisory Board meeting. The purpose was to support her VA RR&D Merit Review funded study evaluating the efficacy of an innovative smoking cessation treatment program for Veterans experiencing unstable housing. The advisory board members met to review study progress in the first year, brainstorm about study recruitment, and provide feedback to the study team about study procedures.

### Consumer, Family, and Expert Panel Advisory Board

The advisory board was led by Dr. Kimberly Green. The board includes homeless Veterans who had participated in similar research projects, a family member of a homeless Veteran, and a social worker from the Durham VA's Healthcare for Homeless Veterans program. Drs. Michael Green and Jonathan Wynn, both clinician-researchers from the Greater Los Angeles VA Medical Center's Research Enhancement Award Program (REAP) for Enhancing Community Integration for Homeless Veterans, also serve on the advisory board. The board will continue to meet annually over the course of Dr. Beckham's Merit Review.

## Education Project Update *Impulse Control in PTSD Treatment*

**Dr. John Lynch** (MIRECC Faculty, Richmond site) lead the team that was awarded a MIRECC Clinical Education Grant in 2011 to support dissemination of a PTSD treatment model that emphasizes functional and adaptive coping skills. As a result of that proposal, the *PTSD Recovery Program* treatment manuals (patient and therapist editions) were developed and distributed, including posting on our website. This program has been very well received and has been implemented in several VA facilities since then. Users report positive results, and Dr. Lynch has submitted the program to the new VHA Promising Practices Consortium. An upcoming article in the *Journal of Aggression, Maltreatment & Trauma* (November 2015) will discuss outcome statistics demonstrating improvements on an adaptive behavior checklist developed by Dr. Lynch, the PCL-M, the MAPS, and a self-efficacy scale. The 3rd editions of both manuals are now available on our website. [www.mirecc.va.gov/visn6](http://www.mirecc.va.gov/visn6)

**Blueprint for Excellence Strategies 1, 2, 7, 8**

## Education Project Update *Self-Management Materials for Sleep Disturbance in Recently Deployed Veterans*

**Dr. Christy Ulmer** (MIRECC Faculty, Durham site) lead the team that was awarded a MIRECC Clinical Education Grant in 2011 to support translation of an evidence-based cognitive-behavioral treatment for insomnia (CBTI) into a self-management workbook format. The team is now in the final stage of refining the workbook and working on developing a national pilot test prior to official release.

# Resources for Veterans & Families

The VA's Specialized Mental Health Centers have launched a new website:

[http://www.mentalhealth.va.gov/self\\_help.asp](http://www.mentalhealth.va.gov/self_help.asp)

## Resources to Empower Veterans Mental Health

Self-help materials can provide valuable education and support for Veterans who may be facing mental health challenges, their friends, and family members. There are a wide variety of self-help materials available and it can sometimes be difficult to select the most useful. VA has assembled a list of reviewer-recommended materials that may be helpful in finding the right option for you. For help in finding these materials, please click the "How to Use" tab.

## Online Life Skills Training for Veterans

There are several free and anonymous on-line education and life coaching programs that use interactive exercises and video demonstrations to teach skills for overcoming life challenges.

<http://www.veterantraining.va.gov/>

### *AIMS: Anger & Irritability Management Skills*

This course offers a wide range of practical skills and tools to manage your anger and develop self-control over your thoughts and actions.

### *Moving Forward: Stress vs Performance*

An educational and life coaching program that teaches Problem Solving skills to help you better handle life's challenges

### *PTSD Coach Online*

PTSD Coach Online is for anyone who needs help with upsetting feelings. Trauma survivors, their families, or anyone coping with stress can benefit.

### *Parenting: Positive Communication*

This course provides parents with tools that strengthen parenting skills and helps them reconnect with their children.

## NC4VETS Resource Guide

The purpose of this comprehensive resource guide is to assist and educate Veterans in learning about state and federal Veteran benefits. Topic areas include services, employment, healthcare, education, housing and personal services.

This resource guide was produced by the North Carolina Division of Veterans Affairs in partnership with the Governor's Working Group on Veterans, Service Members, and Their Families. <http://www.veteransfocus.org>

## CBOC Mental Health Rounds

Each CBOC MH Rounds presentation is now offered **twice** a month:

### *Driving and Dementia*

Wednesday January 13 from 9-10 am ET & Thursday January 14 from 12-1 pm ET

Remember to register in TMS in advance to attend and receive credit. If you require assistance contact EES Program Manager - Tim.Walsh2@va.gov or Education Tech - Jessica.Denno@va.gov

## Online Military Culture Training for Community Providers

<http://deploymentpsych.org/military-culture>

It's important that all who care for Veterans have a basic understanding of military culture. In the interest of the highest quality, most compassionate health care for our Nation's Veterans, the Departments of Veterans Affairs and Defense launched an online course available at no cost to all Veteran care providers.

### *Military Culture: Core Competencies for Healthcare Professionals*

This course stems from research, surveys and hundreds of hours of interviews with Service members and Veterans. It is designed as a comprehensive training in military culture for seasoned practitioners as well as for those less familiar with military populations. The interactive course includes a self-assessment to help providers better understand the biases they may unknowingly have that may be impacting the care they are providing to Veterans and their families. It also includes a variety of vignettes and candid video testimonials to highlight the meaning of military cultural competence.

## *Treating the Invisible Wounds of War*
