

Help us learn about the long-term effects of COVID-19.

VA Puget Sound Healthcare System is studying the causes and patterns of long-term symptoms following a COVID-19 diagnosis.

-  We are looking for people ages 21-65:
- who have not had COVID-19
 - who have had COVID-19

 **If you choose to participate, you will be asked to complete a 30 to 60 minute online questionnaire and brief online cognitive assessment**

 **If you are experiencing symptoms like fatigue, palpitations, fast heart rate, muscle and joint pain, headaches, or digestive problems, you may be asked if you would like to participate in a longer study with monthly surveys.**

RECOVER Study
